

# NPU 75 $\mu$ Powder Cores (10kHz~30kHz)

A Superior solution to Sendust 60 $\mu$  for low frequency applications

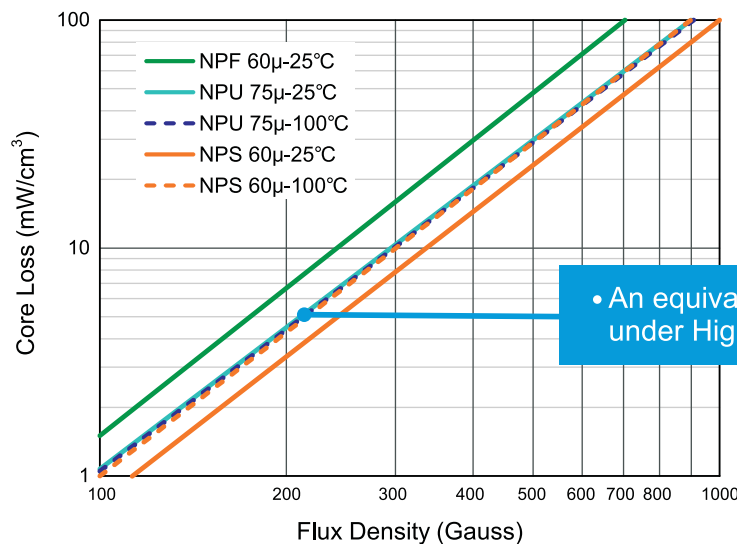

## Good DC Bias Performance

• An equivalent DCB to Sendust 60 $\mu$

## Comparable Core Loss

• An equivalent Core Loss to Sendust 60 $\mu$  under High Temperature Conditions

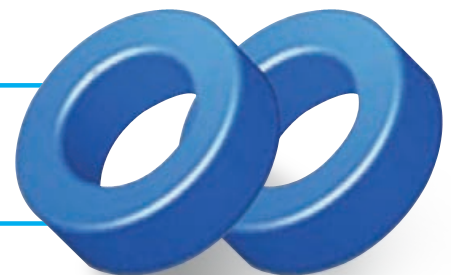

## Basic information

Permeability ( $\mu$ )

75

Size (inch)

1.57 ~ 5.00

Notes: All data are provided by POCO testing platforms.
